# THE MOST IMPORTANT FEATURE OF THEM ALL ... *is the one that makes you money!*

The cylinders are individually removable and replaceable, making the engine as good as new.

Main and connecting rod bearings can be quickly and easily replaced in all International Trucks.

All-steel cab, one-piece top, sides, back and cow, welded into complete cab frame. Weather-tight, safe, comfortable.

If you happen to be mechanically inclined, come in and we will gladly go over International design and construction, inch by inch and part by part. Then you'll understand why we call Internationals *all-truck* trucks.

You'll find feature after feature that have given Internationals their world-wide reputation. But the feature of them all is the one that Internationals will put in your cost records—the *lowest-cost hauling you have ever known*.

And it's this unequaled performance-per-dollar that sells more heavy-duty Internationals than *any other make*.

No matter what your hauling needs may be—city or

town, farm or cross-country—there's an International size to fit your requirements exactly. And whether you need a sturdy half-ton pickup or a powerful six-wheeler, you can always count on International stability, service, long life and economy.
